COMPOSITION: 100% POLYESTER

PRODUCT USE: We always recomend to make the necessary tests to guarantee the final use of the product. Upon request, we can test specific characteristics of the product.

SPECIALITES: Hot embossing, fantasy colour on satin background, solutions against counterfeiting, photo image reproduction, stretchy labels and ribbons, relief woven, silicone appliance, puffy and softy labels...

COLOURS: We have a standard weaving colour card where each colour is shown in white and black warp. The colour is weaved alone with the warp (ground effect) and using the colour to make inscription (brocade effect). A part from the standard colours we can reproduce any special colour on our own laboratory and dyeing means, allowing perfect match with the customer needs.

FINISHES: Hard, medium or smooth, self-adhesive, thermo-adhesive, fire retardant, aromatic, among others.

MAKE UP - TYPES OF CUT AND FOLD:

CENTREFOLD Folded in the middle. 	MANHATTANFOLD Folded in the middle with endfold on one side. 	MITREFOLD Folded in 45° at the ends.
CENTREFOLD WITH SEALING Folded in the middle and thermic punched at the end. 	ENDFOLD Folded at the ends. 	SIMPLE THERMIC CUT

LASER SHAPES
